OBEY TALKS WITH 21,500 DURING HEALTH CARE TELEPHONE FORUM

WASHINGTON, DC – Seventh District Congressman Dave Obey (D-WI) tonight talked to approximately 21,500 constituents about health insurance reform. By allowing thousands of people from all across the Seventh District to participate from their homes, tonight's forum was the best way to involve the largest number of people possible in a good discussion on this important topic with Congressman Obey.

"I appreciate the 21,500 people who participated at one time or another during the call. We had a lot of very good questions, and I hope that the conversation helped people get a better understanding of what health insurance reform means.

"In addition to the many face-to-face meetings I've had on health insurance reform with individuals and groups in my District, this technology has now enabled over 34,000 people to participate in a conversation with me about health care," Obey said.
